How many photos do you want on each product page?

How much description do you need with each photo? Giving an example of a typical product description is most helpful.

Is there a specific color scheme you use? If not, we can match it to your logo.

Is there a certain style or "feel" that you are trying to create with your business/products?

With an order form, there is usually space for the customer to fill the product name, product ID, wholesale price, and quantity for each product. There is also space to fill in their business contact information. If there anything else that you need on the order form (product color or style for example)?

Some of our designs have a full color background, with color edge to edge of the page. These are created on a 9x12" page that can be printed and trimmed to the standard 8.5x11" (usually copy shops can do this for you). If you do not want to print 9x12" pages, we can make sure the design will print well on a standard 8.5x11". We may or may not use full color even if you are willing to print on 9x12" paper.

- I'm OK with using 9x12" paper
- No please make it fit on an 8.5x11" paper

Do you need this rushed?

We try to have designs done within a week but it depends very much on back and forth communication, number of revisions, etc. If you need this design done by a specific date, please specify. Rush orders may be subject to extra charge depending on the timeframe and our work load.

- No rush
- Rush. I really need these done by _____
